

18 February 2019

To: All AgriSETA Stakeholders

Dear stakeholders

In the past AgriSETA used to alert stakeholders on the expiry of contract by issuing **addendums** with some stakeholders positively responding while others not.

AgriSETA will from now onwards only advise stakeholders of a contract due to expire through this letter and **NOT** send you addendums. You are therefore expected to request for an addendum should you wish to extend the contract, the latest date to request addendums **28 February 2019**.

Should AgriSETA not receive any request to extend the contract on or before the above date, it shall be concluded that such funds are no longer required and shall be re-allocated immediately after the **31st March 2019**.

This move is necessitated by **poor implementation** of projects by stakeholders which results in the reserves soaring.

Secondly, AgriSETA reserves the right to extend contracts for learning Programmes that have not been implemented or tranches claimed by the end of the academic year or financial and this covers the following learning Programmes:

- **Bursaries**
- **Graduate Placement**
- **Internships**
- **Skills Programmes**

Kind Regards

.....
